Join us and explore the skills needed by the entire team to provide dental care to the pediatric patient!  
We will cover a variety of topics, including

- The best way to introduce the child to the dental environment
  - How to take bitewing x-rays on a 3-4 year old
  - How to help the parent stop nighttime bottle-feeding
    - How to get rid of the pacifier
    - Effective use of stainless steel crowns
    - Necessary and effective pulp therapy
  - Benefits of bilateral and unilateral space maintainers
    - Cosmetic dentistry for pediatric patients
