“State of the Art Endodontics for the General Practitioners: Materials, Methods and Guiding Principles”

Friday, September 19, 2014

8 hours AGD Credit – IDBE pending final approval

The Friday lecture is designed for the general practitioner to improve their daily endodontic skills. Areas covered will include the latest concepts in diagnosis, case selection, and cleansing, shaping and packing of the root canal system in three dimensions. The course will also include an introduction to the surgical operating microscope, cone beam technology, local anesthesia delivery for endodontic treatment, and will discuss the importance of coronal seal and the role of endodontics in treatment planning versus extraction and implants.

Course objectives for lecture:
- the biologic objectives of root canal treatment
- endodontics in comprehensive treatment planning
- when to extract, when to treat, when to refer
- operatory layout and ergonomics in endodontics
- the surgical operating microscope
- use of cone beam technology

- endodontic diagnosis
- general concepts and goals of endodontic instrumentation including working length, working taper and working diameter
- instrumentation for endodontic cleansing and shaping including stainless steel hand files, rotary nickel titanium files, reciprocating nickel titanium files
- general concepts and goals of endodontic obturation including materials, devices and techniques
- coronal seal including indications and contraindications for posts
- endodontic irrigation
- possibilities for endodontic retreatment, including materials, methods, concepts and indications and contraindications.

HANDS-ON TRAINING
Saturday, September 20 & Sunday, September 21, 2014

16 hours AGD Credit — IDBE pending final approval

The weekend hands on course will review instrumentation and obturation to achieve the biologic objectives of root canal therapy. Techniques discussed in the lecture will be demonstrated in both plastic blocks and extracted teeth. Participants will have ample time to practice instrumentation and obturation of canals utilizing the methods and equipment demonstrated.

- intro lecture on the materials and methods for instrumentation the participants will use
- hands on demo for instrumentation and obturation using plastic blocks and extracted teeth using multiple techniques.
- instrumentation and obturation hands on for the participants using plastic blocks and extracted teeth (participants will need to bring multiple accessed extracted teeth, 8 teeth. 4 molars. 2 bicuspids and 2 anteriors. All must be fully mature teeth with closed apices. No third molars. Participants should not mount their teeth in stone. Participants will instrument and obturate all 8 teeth.
- Gutta percha removal demo
- Gutta percha removal by participants of the previously obturated canals
- Discussion on: evidence based endodontic success and failure expectations, treatment planning for endodontics, when to extract, when to retreat, when to refer (case selection), case studies
- concepts in endodontic retreatment (achievement of patency, gutta percha removal, canal irrigation)
- possibilities for endodontic retreatment, including materials, methods, concepts and indications and contraindications.
- instruments required for endodontic retreatment
- diagnosis and management of iatrogenic events
- obturation and coronal seal after endodontic retreatment

The AGD-Iowa is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from 6/1/2013 to 5/31/2017. ID# 219301

PACE
FAGD/MAGD Approved
6/1/2013 to 5/31/2017

SPEAKER
Richard E. Mounce, DDS

Dr. Richard Mounce is currently in FT private endodontic practice in Rapid City, SD. A graduate of Northwestern Dental School in 1985, he received his endodontic specialty certification at Oregon Health Sciences University in 1991. Dr. Mounce has lectured and written extensively around the globe on the specialty of endodontics. In addition to private practice, he is the owner of MounceEndo, an endodontic supply company based in Rapid City.
