**Friday & Saturday
September 29 & 30, 2017
Bozeman, Montana**

Oral Surgery for the General Dentist

This powerful presentation was designed to galvanize any dental practice. Drawing from 30+ years of clinical experience and 5,000 hours of CE, Dr. Rasner explains step-by-step protocols for a wide array of oral surgical procedures that most GP's likely refer. These foundational principals have been refined by world class leaders in clinical education and condensed into the most safe and predictable oral surgical services for the general practice. These procedures can elevate any dental practice to extraordinary levels of success:

Course Objectives:

- 1) Stressless atraumatic extractions of absolutely any tooth
 - 2) Socket grafting
 - 3) Connective tissue grafts
 - 4) Coronally positioned flaps
 - 5) Blueprint for predictable surgical implant success
 - 6) Suturing 101
- Hands on using pig jaw as model.*

Steven L. Rasner, DMD, MAGD

After earning his bachelor's in psychology from Rutgers's College, Dr Steven Rasner graduated for the University of Pennsylvania in 1980 with a doctorate in dental medicine. He received his Mastership from the Academy of General Dentistry in 1997 and completed the written portion for the Board certification by the American Board of General Dentistry. Known for his passion and original, rapid-fire delivery, Dr. Rasner has challenged, inspired, and shared his principles of success with professionals in 37 states and 5 countries. He has also been chosen as one of the Top 100 Clinical Educators by the dental publication Dentistry Today for the past five years.

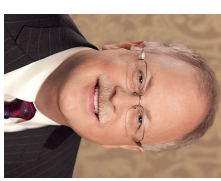

Dr. Rasner is a member of the American Dentistry Association, Academy of Periodontology, Academy of General Dentistry, American College of Implantology, International Congress of Oral Implantologist, and the International Academy for Facial Esthetics.

The Art and Science of Fixed Prosthodontics – From Basic to Complex

The purpose of this course is to demonstrate in a detailed step-by-step fashion, procedures that if practiced can impact on your ability to deliver an improved level of artistic and functional dentistry in your practice tomorrow!

Course Objectives:

- 1) Discuss and differentiate all ceramic restorative options
- 2) Review preparation requirements for all ceramic systems
- 3) Learn the importance of biologic provisionalization in overall case management
- 4) Learn a proven reliable technique for "flawless" master impression making.
- 5) Learn a cementation protocol for reliable placement and occlusal adjustment during delivery of definitive restorations.
- 6) Learn some "creative" ways to plan and treat complex aesthetic and functional problems.

Robert A. Lowe, DDS, FAGD, FICD, FADI, FACD, FIADFE

Dr. Robert A. Lowe received his DDS degree, magna cum laude, Loyola University in 1982, has maintained a full time practice for 30 years, and is a world recognized teacher and clinician. He taught for 10 years at Loyola University School of Dentistry and has received Fellowships in the AGD, ICD, ADI, and ACD.

In 2004, Dr. Lowe received the Gordon Christensen Outstanding Lecturer Award and in 2005 received Diplomat status on the American Board of Aesthetic Dentistry. Dr. Lowe has authored numerous scientific articles and has contributed to dental textbooks. He is a consultant for a number of dental manufacturers. Dentistry Today consistently names Dr. Lowe to the "Top 100 Clinicians in Dentistry"

Thank You For Registering (Note: Both Participation Courses are limited to 30 Participants)
