Patients with debilitated dentition often seek rehabilitation to quickly regain their confidence and quality of life. Clinicians can offer a treatment solution for immediate full arch restoration to meet patient demands and expectations. This program combines a didactic and hands-on segment to show participants a step-by-step, practical approach to deliver a provisional prosthesis on the day of implant placement. The course will also focus on the steps necessary to create and deliver the definitive prosthesis. The hands-on portion of the course provides the clinician with the experience to perform the procedure on models and have a clear understanding of the steps needed to achieve an immediate and functional full arch provisional restoration. Participants of the hands-on sessions will retain the model (valued at approximately $600 US).

PROGRAM OBJECTIVES:
At the completion of the program, the participant should be able to:
- Understand the preoperative steps necessary to plan for fabrication of an immediate full arch provisional restoration utilizing the DIEM® 2 Guidelines
- Property plan for a productive and cost-effective use of their time by reducing the number of appointments
- Understand the steps necessary to create and deliver the definitive prosthesis

Speaker: Joseph R. Carpentieri, DDS

Dr. Carpentieri received his dental degree from Baltimore College of Dental Surgery at the University of Maryland and his Certificate in Prosthodontics from Albert Einstein College of Medicine, Montefiore Medical Center in Bronx, New York. He completed a four year surgical fellowship at the Department of Periodontology and Implant Dentistry at New York University College of Dentistry. Currently, he is an associate professor at Columbia University College of Dental Medicine. Dr. Carpentieri maintains a private practice in White Plains, New York.

REGISTRATION CANCELLATION
To provide each course participant with a focused and personalized educational experience, the number of registrants is limited for this course. Registration is accepted on a first-come, first-serve basis. Full cancellation policy listed to the right under REGISTRATION CANCELLATION.

BIOMET 3i® is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. BIOMET 3i designates this activity for 3-6 continuing education credits. Continuing Education credits awarded for participation in the CE activity may not apply toward license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.
