THE ART & SCIENCE OF RESTORATIVE DENTISTRY – FROM BASIC TO COMPLEX

REGISTRATION: 8:00AM - 8:30AM | COURSE: 8:30AM - 4:00PM

COURSE OBJECTIVES

In today's world, the clinical practice of restorative dentistry is a very exciting and challenging endeavor for the "wet gloved practitioner." Consistent, predictable, clinical techniques to create quality dental restorations in a time efficient manner form the basis of every procedure that we perform for our patients. Effective use of new science and technologies in dentistry will help create a more pleasant patient experience, allow you to add more clinical procedures for your current patient base, and differentiate your practice in the marketplace. Chair time, as always, is our most precious commodity, so profitability starts by working efficient, working smart, and expanding your current services that you provide.

In this technique filled seminar, Dr. Lowe will teach you the skills you need to refine your clinical skills to a level that will help you create consistent quality. Some of the topics that will be covered include:

1. Direct Aesthetic Restorative Dentistry
2. "World Class" Crown and Bridge
3. The Perio-Aesthetic Connection to Restorative Dentistry
4. Creative Treatment Planning: When It Doesn't Go By The Book

You will learn hands-on:

- Anterior composite veneer with intrinsic effects
- Class II Direct Composite with sectional matrix
- Porcelain Veneer Preparation
- Anterior and Posterior All Ceramic Crown Preparation (pressed ceramic & zirconium)

Lakeshore Convention Centre | 806 Southdown Rd. | Mississauga, ON

Course Fee: \$1595 each participant
(21 Participation Hours for Seminar | Category 2 Hours)

42 participation hours with completion of assignment.
