Undetectable and Long Lasting Restorations: Planning and Technique for Stellar Dentistry

COURSE OUTLINE

Learn simple, repeatable step by step techniques to deliver undetectable direct and indirect restorations. Do your Class 4 restorations show the fracture line? Class 3's and 5's not blend into the tooth? Adaptation issues in proximal boxes of Class 2's? Struggle with Black Triangle Closure? Not confident with direct composite veneers? Want to do more indirect veneers? Bonus: Planning for smile design. The course will teach you new tips and tricks to allow all these restorations to disappear.

Learning Objectives:

- Learn new prepping, restoring and finishing technique for undetectable direct composite restorations
- Gain confidence for increased longevity with direct and indirect restorations
- Learn the five minute finish for composite: Line angles, Fossa, Surface Texture
- Apply smile design principles for better outcomes and increased patient acceptance
