## ENDO FOR GP'S: BETTER, FASTER, SAFER ROOT CANALS AND MASTERING INSTRUMENTATION, IRRIGATION AND OBTURATION

Presented by

**Dr. Manor Haas**

DDS, Cert. Endo,  
MSc(D), FRCD(C)

**November 22, 2024**

**8am - 4pm**

**Radisson Hotel  
6620 - 36 St NE Calgary AB**

All Day Lecture & Hands-On  
7 Credit Hours  
Limited to 40 DDS ONLY

### ENDO FOR GP'S: BETTER, FASTER, SAFER ROOT CANALS

Learn how you can perform root canals better,  
faster and safer. Learn of recent product and  
procedural innovations that have made successful  
endodontic outcomes more predictable. Many  
clinical tips and tricks will be demonstrated and  
tailored to novice and experienced GPs. See how  
to locate and instrument calcified and curved  
canals and obturate predictably. Post-op pain,  
flare-ups and infection management via analgesics  
and antibiotics will also be reviewed.

The program is tailored to both novice and  
experienced dentists.

### OBJECTIVES

- **FASTER.** Learn how to more efficiently: locate  
canals (including MB2), instrument and  
obturate with fewer steps.

**BETTER.** Learn how to better: access teeth,  
locate and instrument cal'd canals, follow  
curved canal, anesthetize (hot) teeth, improve  
intra-canal medications.

**SAFER.** Learn how to separate less files,  
prevent perforations, avoid canal ledging /  
blocking, prevent obturation extrusion, reduce  
post-op pain.

Learn how to perform single visit root canals.

Learn the what and when of alagesics and  
antibiotics in endodontics and how to reduce  
post op flare-ups.

Learn how to diagnose endo versus non-endo  
related symptoms and avoid wrong treatments.

### ENDO FOR GP'S: MASTERING INSTRUMENTATION, IRRIGATION AND OBTURATION

Under close supervision by Manor and on acrylic  
and extracted teeth, participants will learn how to  
locate and negotiate canals (including curved and  
calcified), instrument and obturate more efficiently  
and safely. There will also be exercises on safe  
and effective intra-canal irrigation. Practical tips  
and tricks will be demonstrated.

This workshop is tailored for novice and  
experienced general dentists.

### OBJECTIVES

- Learn to locate and instrument calcified and  
curved canals with small hand and new  
generation NiTi files.

Learn how to predictably obturate root canal  
systems (not just canals).

Learn how to safely and effectively perform  
intra-canal irrigation, activation and  
debridement.

Learn of protocols needed for single visit endo,  
intra-canal irrigation and simplified warm  
obturation.

Learn clinical tips on how to instrument  
posterior teeth and how to manage patients  
with limited mouth openings.

We ask that  
participants bring at  
least three previously  
accessed teeth  
stored in bleach.

**Dr. Manor Haas** has been a certified  
specialist in endodontics since 2002  
and is extensively involved in continu-  
ing education. He is on staff at the  
University of Toronto's Department of  
Endodontics and the Hospital for Sick  
Children Department of Dentistry. He  
also maintains a full-time private  
practice limited to endodontics and  
microsurgery in Toronto, Canada.  
Manor is a regular contributor to  
dental magazines and websites and  
has lectured internationally on nearly  
all aspects of endodontics. More  
recently, he has become an avid user  
and proponent of dental social media  
as a means to educate the dental  
community. He goes by his Instagram  
name "TheDentalPlumber".
