

Friday Feb 27 Anterior Composite

8:00am - 4:30pm
(registration and
breakfast 8am,
lunch provided 12pm)

Saturday Feb 28 Alter Tooth Life Cycle

8:00am - 4:30pm
(sign-in + breakfast 8am,
lunch provided 12pm)

.....
Early Bird Registration
AGD members \$1095
Non-AGD \$1295

After Sep 30/25
AGD Members \$1245
Non-AGD \$1445
.....

LOCATION
Hotel Blackfoot
5940 Blackfoot Trail SE
Calgary, AB
.....

CREDITS
14 Participation Hours
AGD Subject Code 250
.....

Limited to 30 DDS ONLY
.....

CANCELLATION POLICY
Before Dec 15/25:
Full refund.
Dec 16/25 to Jan 14/26:
Refund minus \$100
registration fee.
Jan 15/26 and later:
No refunds.

DAY 1 - LAYING IT DOWN: CREATE BEAUTIFUL ANTERIOR COMPOSITE RESTORATIONS

With contemporary direct composite systems, now the clinician can truly be an artist by conservatively and esthetically creating restorations that are so life like that they virtually emulate the beauty of natural tooth structure. However, rehabilitating or enhancing a smile with direct composite resins can be a challenge. The task not only requires an understanding of the intricacies of shade selection, but also a mastery of replicating the uniqueness of natural tooth morphology and luster of the restoration. The key elements and methods for the creation of life like restorations, which are critical for excellence in anterior composite resin restorations, will be discussed.

LEARNING OBJECTIVES

1. Composite characteristics
2. Layering strategies
3. Finishing and Polishing Techniques
4. Peg Laterals, Resin Veneer or Class V composites

DAY 2 - ALTER THE TOOTH LIFE CYCLE

In this hands on course you will begin the exploration of Minimally Invasive Dentistry as it relates to posterior indirect restorations. The traditional approach we all learned early on in our careers will be challenged as we look to take the approach of "prep less and bond more".

Advanced Adhesion techniques and materials can help to minimize the removal of healthy tooth structure and take your restorations to the next level. We will perform non-retentive preparations and dentin protection strategies together with temporization techniques you can implement in your practice.

LEARNING OBJECTIVES

1. Understand the Benefits of Immediate Dentin Sealing
2. Raise deep Sub-Gingival Margins to Supra-Gingival Margins
3. Tackle the challenge of Temporizing Non-Retentive Preparations
4. Understand Management of Cracked Tooth Syndrome

Dr. Troy Schmedding is a 1993 honors graduate of the Arthur A. Dugoni School of Dentistry in San Francisco, California. Troy maintains a private practice in Walnut Creek, CA focusing on aesthetic and functional dentistry. Dr. Schmedding was a Course Director at the University of the Pacific and has published numerous articles on the topics of restorative materials and protocol driven Dentistry. An Accredited member of the American Academy of Cosmetic Dentistry, he lectures both nationally and internationally on Aesthetic, Restorative and Adhesive Dentistry. Dr. Schmedding shares his knowledge with numerous dental manufacturers helping to stimulate new product development for our profession.

Ontario Academy of General Dentistry (Approval #219289)

Academy of General Dentistry Approved PACE Program Provider. FAGD/MAGD Credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. 01/01/2010 - 12/31/2025

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the joint program provider approval of Ontario AGD and The Alberta AGD.. Ontario AGD is approved for awarding FAGD/MAGD credit. AGD ID# (219289)
