Successful Periodontal Management: A Collaborative Approach (Morning Course)

COURSE OUTLINE

Having a hygiene program with strong periodontal knowledge is critical to the success and long-term maintenance of patients in any dental practice. Therefore it's critical the hygiene team have established guidelines for treatment around implants and natural teeth. This course reviews the essential diagnostic and radiographic criteria the hygiene team needs to identify for the collaborative role they play in the treatment and referral of periodontal cases.

Establish Your Foundation; Surgical Extractions With Simultaneous Bone Grafting (Afternoon Course)

COURSE OUTLINE

Understanding the transformation an extraction site undergoes upon removal of a tooth is essential for advancing your restorative outcomes. This course will provide a foundation in understanding how to surgically remove teeth automatically to minimize bone loss while learning the vital role biomaterials play in your future implant and/or prosthetic therapy.

Learning Objectives:

- Establish an atraumatic technique for surgical extractions
- Understand how to counter the significant functional and esthetic challenges tooth removal creates
- Know when to utilize specific bone and membrane materials to maximize results

Dr. Sam Shamardi is an established leader, educator, clinician, author, and dental entrepreneur. He has a passion for providing solutions to significant unaddressed problems for dental professionals via educational programs and his faculty position at Harvard while providing transformative changes for the periodontal health of his patients.

Dr. Shamardi earned his DMD at Tufts University, where he served as Class President for 4 years, and his Periodontal certificate at the University of Pennsylvania. He is a Diplomate of the American Board of Periodontology and Implant Surgery and practices full-time in Boston while teaching part-time at the Harvard Division of Periodontics for the last decade.

Dr. Shamardi lectures nationally and internationally on a wide array of topics including but not limited to periodontics/hygiene, hearing loss in dentistry, financial and practice management, and innovations in dentistry.
