Smile Design & Occlusion Seminar

A Four Day Hands On Course

with Dr. Steven Hill

Smile Design : **Dr. Steven Hill**

Dr. Hill's study of cosmetic dentistry began in 1987 and he is now an Accredited Member of the American Academy of Cosmetic Dentistry and currently sits on their board of directors.

He is a co-founder and past president of the Canadian Academy of Cosmetic Dentistry (an affiliate of the AACD). Dr. Hill received his dental degree from the University of British Columbia. A general practitioner providing services in cosmetic dentistry, Dr. Hill has completed post graduate studies at: Creating Restorative Excellence Inc., Seattle, WA.; the Cosmetic Continuum, Louisiana State University in New Orleans, LA; Advanced Restorative Esthetics III, Baylor College, Dallas, TX and more recently, the Occlusion, Functional Anterior and Full-mouth Synergy programs from the Hornbrook Group of San Diego, CA. Dr. Hill enjoys his active family life with his wife and three kids. His other interests include wine making, gardening, skiing, cycling and indoor rock climbing.

Occlusion : **Dr. John N. Nasedkin** D.D.S., F.R.C.D.(C.), F.A.D.M.

Dr. Nasedkin graduated with a D.D.S. from the University of Alberta in 1959 where he was awarded a Gold Ring for participation in student activities. His Clinical Fellowship in Dental Medicine at the Forsyth Dental Center in Boston, Massachusetts, was followed by three years of practice and study in London, England.

He is a certified specialist in prosthodontics (Fellow, Royal College of Dentists of Canada) and a Fellow of The Academy of General Dentistry and of the Academy of Dental Materials. Dr. Nasedkin has for many years been an Examiner in Prosthodontics of the Royal College of Dentists of Canada. Memberships include the Canadian Academy of Restorative Dentistry and Prosthodontics, the Pacific Coast Society for Prosthodontists, the International College of Prosthodontists, the American Academy of Cosmetic Dentistry and the Academy of Osseointegration. He is also a Master Tutor of the Faculty of General Dental Practitioners (UK). He founded the highly successful "Biology of Occlusion" programs of The American Equilibration Society of which he is a Past - President. He is the moderator and program coordinator of the annual Pacific Implant Symposium and is the mentor of TEST, The Esthetic Study Team, and associated groups in many cities.

Dr. Nasedkin is a Past President of the American Equilibration Society. This is the world's largest Occlusion/TMD organization. For information go to www.aes-tmj.org.

Dr. Nasedkin has presented programs on Occlusion/T M Joint and Esthetics on a world-wide basis. He was the section editor of Cranio (The Journal of Craniomandibular Practice) and the co-editor of the book, "Occlusion: The State of the Art". He had an article published in the July/August 2003 issue of the Journal of the Canadian Dental Association. He is now a consultant in esthetics, TMD and mouth rehabilitation. Dr. Nasedkin brings a wealth of experience to his areas of interest.

Advanced Smile Reconstruction 4 Day Hands-ON course

This is a hands-on, live patient program.

It takes place over two weekends that are two weeks apart to allow time for the ceramists to complete their work.

You will need a patient who requires 6 – 10 maxillary indirect restorations and they need to be there on both weekends – firstly for the preparation and provisionalization of their teeth and secondly for the delivery of their new smile.

It is important to have your patient vetted by our instructors before the start day.

Essentials of Esthetics

1. Identify important anterior dental anatomy.
2. Learn dental esthetic ratios.
3. Define 'age specific' set ups.
4. Understand the relationships between chroma, hue and value.
5. Review material choices based on strength vs esthetic considerations.
6. Occlusal considerations – use of JVA(joint vibrational analysis)
7. Use provisional restorations to test function and esthetic outcomes.

Essentials of Prep Design

1. Learn to use different designs for different needs
2. Is 'no prep' and option?
3. How material choice affects design

Essentials of Restoration Delivery

1. Review enamel and dentinal bonding for 2012.
2. Use of T-Scan

Location and Dates:

Pacific Oral Health Society,
15850 - 24th Avenue,
Surrey, BC, V3S 0G1
