Smiling comes naturally to Dr. Ed Philips, an experienced dentist who has redesigned the smiles for thousands of patients. From his early training at The Toronto Hospital for Sick Children he has continuously strived to blend the art and science of crafting beautiful smiles. He has developed systems in classifying Smile Patterns as related to dentistry. The beauty of his work is often featured in the country's leading dental publications. His enthusiasm for smiles extends far beyond his office walls. Dr. Philips is a recognized international and local speaker and has received numerous awards and honours from his fellow colleagues.
