

Dental Office Construction & Renovation

From Breaking Ground to a Lifelong Practice

Learn the foundations of dental clinic development from pre-construction to daily management and how to structure your operations for long-term patient care.

This one-day seminar takes dental professionals through the roadmap of planning and launching a successful new office. Industry experts will guide you through essential pre-construction considerations, including RCDSO compliance and Ontario building regulations, that impact how you and your staff will work on a daily basis. This session equips you with a practical checklist of decisions that impact the longevity of your practice before breaking ground, including:

- Location & Construction
- Leasing & Contracts
- Accounting
- Funding
- Equipment Installation
- IPAC
- HR & Staffing
- Office Management
- Marketing

Learning Objectives

1. Learn the end-to-end stages of dental clinic development with the regulatory requirements of each phase.
2. Create a checklist of considerations tailored to both your existing and planned practice.
3. Understand how to evaluate your practice for patient growth prospects, staffing needs, and financial capacity.

Friday, November 13, 2026

9:00am - 3:00pm ET

Dental Xcel Training Centre

1075 North Service Rd West, Oakville

4.5 CE Hours
