This one day course is designed for general practitioners to gain knowledge and confidence in proper diagnosis and risk assessment of patients being prepared for prosthetic treatment. Each course includes:

- Patient's risk assessment
- Diagnostic skills
- Treatment planning
- Managing prosthesis in esthetic zones
- Discussion of need for mucogingival surgery, ridge augmentation, interdental papilla preservation, reconstruction and crown lengthening procedures in esthetic and non-esthetic zones
- High quality videos of procedures done on live patients by Dr. Sandhu
- Hands-on workshop on surgical crown lengthening and soft tissue grafting on specially designed typodont models.

Dr. H. S. Sandhu,

DDS, PhD, Dip. in Perio, FACD, FICD.

Dr. Harinder Sandhu of London, Ontario, has been Director of Dentistry and Associate Dean of the Schulich School of Medicine & Dentistry 2006-2014. He completed his specialty training in Periodontics from Loma Linda University, U.S.A in 1985. He served as president of the Association of Canadian Faculties of Dentistry and was awarded an American Dental Education Association (ADEA) Fellowship - a first for Canadian faculty and administrators.
