Incorporating a New Reciprocating System (RECIPROC Blue) into Your Endodontic Practice

COURSE OUTLINE

This course provides a comprehensive guide for clinicians seeking to integrate a new reciprocating file system (RECIPROC blue) into their endodontic practice. Participants will gain an understanding of the principles, techniques, and clinical applications of reciprocating systems, enhancing efficiency, patient outcomes, and overall confidence in endodontic procedures.

Learning Objectives:

By the end of this course, participants will:

- Understand the fundamentals of reciprocating systems in endodontics.
- Compare reciprocating systems with rotary and hand instrumentation.
- Learn the clinical workflow and proper handling of the selected reciprocating system.
- Identify patient indications and case selection for reciprocating systems.
- Recognize potential challenges and troubleshooting strategies.

Hands-on demonstration of file usage on extracted teeth, resin blocks and plastic teeth. This course ensures participants feel confident and prepared to seamlessly incorporate the new reciprocating system into their practice, ultimately improving patient care and treatment efficiency.

Please bring extracted teeth with endo access completed with you

Dr. Rodrigo Sanches Cunha completed his Undergraduate Dental Degree in 1994, which he obtained from the Catholic University of Campinas in Sao Paulo - Brazil. His post-graduate studies include a Specialty degree in Endodontics obtained in 1997 from the State University of Campinas (UNICAMP); in 2002, a M.Sc. degree in Clinical Dentistry (Endodontics), and in 2006, a Ph.D. degree in Dental Sciences both of which he received from Sao Leopoldo Mandic Centre for Dental Research. Dr. Cunha was an Associate Professor at the Catholic University of Campinas from 2001 until 2011. On September 9, 2011, Dr. Cunha moved to Winnipeg to work as a full-time Professor and Division Head (Endodontics) at the College of Dentistry, Faculty of Health Sciences at the University of Manitoba. Dr. Cunha became Fellow of the Royal College of Dentists of Canada (Endodontics) in 2013 and, in 2016, decided to work in Private Practice full-time. Dr. Cunha is the Co-founder of Prairie Endodontics in 2018. Dr. Cunha has been a guest speaker at more than 200 events worldwide. He has published more than 100 papers and abstracts in several peer reviewed journals. In addition, Dr. Cunha has published six book chapters and has extensive clinical experience obtained working in Private Practice limited to Endodontics since 1995. Dr. Rodrigo Cunha is the Past President of the Canadian Academy of Endodontics (CAE).
