## Codependent Cariology (AM Course) Offensive Dentistry (PM Course)

### AM COURSE OUTLINE

Depriving cariogenic bacteria of sugar is the cornerstone of traditional caries management, yet the science of CAMBRA (Caries Management By Risk Assessment) takes cariology to a whole new level. If you're still telling patients to, "Brush, floss, and use fluoride toothpaste" you're going to be surprised by the myriad of treatment options available today. Streptococcus mutans has more to fear than stronger fluoride and more of it, as dentistry embraces oral healthcare.

#### Objectives:

- Identify risk factors leading to caries
- Explain the role of commensals
- Implement disease management in practice
- Safely consume a variety of candy and sugary beverages
- Prolong the life of restorations in all patients

### PM COURSE OUTLINE

Let's face it, sitting through a lecture about dental caries or caries risk assessment isn't appealing (in fact it sounds downright boring). However, the science of clinical cariology is beginning to have an impact on restorative techniques and technology. Learn how to make Streptococcus mutans eat its own glucan when facing an armamentarium with much more than an electronegative anion and really fast diamonds.

#### Objectives:

- Intervene medically in the caries process
- Control patient caries risk with focused therapeutics
- Change behaviors to minimize recurrent decay
- Improve the prognosis of restorative treatment

Dr. Nový hold faculty appointments at Virginia Commonwealth University and Harvard School of Dental Medicine. Since graduating with honors from Loma Linda University School of Dentistry, Dr. Nový's enthusiasm for teaching dental materials and cariology has taken him to four continents. He is the recipient of the Academy of General Dentistry Weclaw Award, The ADA Evidence Based Practice Award, The AADR/IADR Gies Award, and the ADA Adult Preventive Care Practice of the Year. He served on the ADA Council of Scientific Affairs from 2010 to 2014, and in 2016 he was appointed the Consumer Representative, United States Food and Drug Administration Dental Products Panel.

Ontario Academy of General Dentistry (Approval #219289)  
Academy of General Dentistry Approved PACE Program Provider. FAGD/  
MAGD Credit. Approval does not imply acceptance by a state or provincial  
board of dentistry or AGD endorsement. 01/01/2025 - 12/31/2031
