Out With the Old, In With the New – A Crash Course on State of The Art Dentistry

COURSE OUTLINE

Don't let Dentistry pass you by. We will take the solid foundation that we have in Dentistry and modernize it, with new concepts, materials and techniques. We will touch on topics in many specialties and sub specialties, rejuvenating and streamlining them. This program will leave you wanting more. We will cover the following:

- The etiology of Dental Caries.
- How to stop your patients from getting cavities.
- State of the art caries diagnosis.
- Predictable treatment of white spots.
- Tooth whitening: Great results every time.
- Posterior restorative Dentistry made easy.
- Glass Ionomers, Liners and more.
- Impressions temporization and cementation.
- Dental lasers: Truth or Hype?
- Simplified bone grafting for the GP
- Marketing your skills

Dr. Ron Kaminer is a 1990 graduate of the State of New York (SUNY) Buffalo School of DentalMedicine. Dr. Kaminer has always been passionate about technology and was one of the first 100dentists in the country to include a hard tissue Dental laser into his practice. Over the years Dr.Kaminer has taught Dental Lasers, technology and minimally invasive Dentistry to thousands ofdentists worldwide. He sits on the Board of Catapult Education, is a frequent contributor to Mentormagazine, sits on the editorial board of Dental Product Shopper and acts as a clinical consultant tonumerous Dental manufacturers. While doing all of the above, Dr. Kaminer practices full time in both his offices in Hewlett and Oceanside N.Y. focusing on Minimally Invasive and Digital Dentistry. He is aFellow of The Academy of General Dentistry, member of the American Dental Association, andmember of The Academy of Laser Dentistry.Dr. Kaminer offers half-day, full-day and multi-day lectures, including custom courses and hands-on workshops.
