## CPR & Medical Emergencies in the Dental Office

### COURSE OUTLINE

Dr. Gajjar will review the steps to follow when you encounter a medical emergency in your office. A recertification of CPR for health care providers will be offered as well as the use of an AED for targeted responders. Yearly CPR renewal is required for all office staff and this course presents an excellent opportunity for members of the dental office to stay current with the new changes in CPR protocol.

Dr. Gajjar lectures on managing medical emergencies in the dental office, has been a lecturer of oral pathology and clinical instructor at the Canadian Academy of Dental Hygiene, and has served as a clinical instructor in the Oral Diagnosis and Emergency clinics at the University of Toronto, Faculty of Dentistry. Dr. Gajjar is a Master of the Academy of General Dentistry, a Fellow of the Academy of Dentistry International, a Fellow of the Pierre Fauchard Academy, a Fellow of the International College of Dentists and a fellow of the American College of Dentists. He has served on the PLP committee, Disciplines Committee, QA Committee and as Councillor of the Royal College

of Dental Surgeons of Ontario. He has served as the President of the Academy of General Dentistry, is a Clinical Examiner for the NDEB, and is certified in IV sedation.
