DR. CONVISSAR

Dr. Convissar is a pioneer in the field of laser dentistry. One of the first dentists to incorporate lasers into general practice, Dr. Convissar has over 22 years of experience with CO2, Nd:YAG, Diode and Erbium wavelengths. The author of over 15 peer reviewed papers and author/coauthor of 4 textbooks on laser dentistry, Dr. Convissar has presented over 300 laser seminars on all 5 continents. He practices cosmetic, restorative, and laser dentistry in New York City, where he also serves as Director of Laser Dentistry at New York Hospital Queens. His latest textbook, Principles and Practice of Laser Dentistry, published in September of 2010 is the # 1 selling laser dentistry textbook in the world.

Toronto Location: Durban Labs | 40 Pippin Road, Unit 11 | Concord, ON

AGD Members \$699 | Non-AGD Members \$899

12 Category 2 Hours | 12 Participation Hours

24 participation hours with completion of assignment
AGD Subject Code 135

Please visit www.ontarioagd.org to register or email ontarioagd@gmail.com for more information. Please email info@quebecagd.org or quebecagd@gmail.com to register for Quebec course.

There is an additional fee of \$95 to take the one Standard Proficiency test paid directly to the Academy of Laser Dentistry to receive a letter confirming that standard proficiency has been achieved. Dentists who are or become members of the Academy of Laser Dentistry will get a letter and certificate confirming standard proficiency has been achieved.

Terms & Conditions

The Ontario Academy of General Dentistry reserves the right to cancel any mastertrack course at any time. In such cases a full refund will be given to each participant. Participants cancelling more than 90 days prior to the course will be refunded in full. Participants cancelling less than 90 days but more than 30 days prior to the course are entitled to a refund less a \$300.00 Administration fee. Participants who cancel less than 30 days prior to the course are not entitled to a refund. Costs incurred for travel and hotel accommodations remain the responsibility of each participant.

Ontario Academy of General Dentistry (Approval #219289)
Academy of General Dentistry Approved PACE Program Provider. FAGD/
MAGD Credit. Approval does not imply acceptance by a state or provincial
board of dentistry or AGD endorsement. 01/01/2010 - 12/31/2017

PARTICIPATION COURSE IN LASER DENTISTRY

A Standard Proficiency Certification Course

REGISTRATION: 8:00AM - 8:30AM | COURSE: 8:30AM - 4:00PM

Candidates who successfully complete this course and its prerequisites* will receive a Certificate of Standard Proficiency in Dental Lasers recognized by the Academy of Laser Dentistry, an international organization with more than 1200 members in over 25 countries.

Has the hoopla surrounding the introduction of lasers to dentistry been more smoke than substance? Since 1990, the U.S. Food and Drug Administration has approved the use of SEVEN different wavelengths for dental use. These different wavelengths create a world of difference in how the lasers operate, and their usefulness in the oral cavity. The use of lasers for specific procedures found in everyday general practice will be highlighted. The first day will detail laser use in the following subject matters:

- 1) Non-Surgical, Surgical and Regenerative Periodontal Therapy
- 2) Surgical and Restorative Implantology
- 3) Fixed and Removable Prosthetics
- 4) Oral Medicine/Oral Surgery/Oral Pathology
- 5) Pediatric and Adolescent Operative Dentistry
- 7) Endodontics
- 8) Pedodontics/Orthodontics
- 9) Esthetic/Cosmetic Dentistry
- 10) Practice Management/Marketing

The second day workshop will give each participant hands-on experience with the various wavelengths, performing surgical procedures on in-vitro models. Real time videos of routine laser procedures will be part of the in-depth discussion of specific instrument settings and techniques for laser surgical procedures.

At the conclusion of the course, the participant will be familiar with the various wavelengths used in dentistry today, their effects on oral tissues, and their uses for specific oral diseases and pathologies found in everyday practice. They will be able to incorporate this knowledge into a basis for determining which laser wavelength is most appropriate for their practice, and be able to incorporate hard and soft tissue laser dentistry into their practices first thing tomorrow morning.

*Standard Proficiency Certification will be awarded upon successfully completing an online examination administered by the Academy of Laser Dentistry. The candidate must own a laser or have access to a laser, and have taken a previous introductory laser course. The candidate must become a member of the Academy of Laser Dentistry. A free introductory course on lasers is available on the Academy of Laser Dentistry Website at: www.laserdentistry.org/education/index.cfm

For more information on the Certification process, please visit LaserDentistry.org
