## 2 Day Mastertrack

| TORONTO

JUNE 2 - 3, 2017

FRIDAY TO SATURDAY

### DR. JOHN WEST, DDS, MSD

As the founder and director of the Center for Endodontics, British-born Dr. John West is recognized as one of world's premier educators in clinical and interdisciplinary endodontics. John West received his DDS from the University of Washington where he is an Affiliate Associate Professor. He earned his MSD in endodontics at Boston University Henry M. Goldman School of Dental Medicine while being educated by the late Professor Herbert Schilder. John is a clinical instructor at Boston University where he has been awarded the Distinguished Alumni Award. He has presented unrivaled endodontic continuing education in all the world's continents while maintaining a private practice at the Center for Endodontics in Tacoma, Washington. He mentors the world's only stand-alone four day mini-endodontic residency program at the Interdisciplinary Dental Education Academy (IDEA) in San Francisco. John is a clinical visionary, an inventor, a teacher, an author, and an advocate for any dentist who wants to experience the successful possibilities of endodontics in his or her practice. His personal teaching style resonates with audiences as he teaches them how to achieve clinical artistry in their craft and invites them to become masterful endodontic clinicians.

# CHANGING YOUR ENDODONTIC EXPERIENCE

JUNE 2: 8:30AM - 4:00PM | JUNE 3: 8:30AM - 12:00PM or 12:30PM - 4:00PM

What if you could make endodontics the best part of your day? In this course, master endodontic clinician, Dr. John West, will show you how to do just that! Doctors will learn the skills of successful access, creating manual and mechanical glide paths, shaping with WaveOne® Gold single file technology, 3D cleaning and cone fit for 3D vertical compaction techniques.

Dr. West's promise: "Give me a day and I'll give you a lifetime of principles and skill sets that you can use in almost every endodontic situation. You will learn newfound confidence and control in your endodontics. And endodontics will be FUN!"

## WORKSHOP

How To Do Endo: "The only endodontic workshop you will ever need to take"  
John West, DDS, MSD

The number one problem of endodontic predictability and ease is failure to grasp the principles and techniques of endodontic mechanics.

Dr. West teaches dentists the critical skill sets of "Finding, Following and Finishing" endodontic canals. Dr. West will demonstrate the three skills, followed by a hands-on opportunity for clinicians to practice themselves and have their work reviewed to ensure they have grasped the three skills.

Manual and mechanical glide path preparation will become second nature once you learn the four manual motions for glide path preparation. You will learn the magic of WaveOne® Gold technology to prepare elegant shapes that are easy to three-dimensionally obturate. Finally, you will learn how to immediately implement these newfound skills into your practice.
