MAGD Credit. Approval does not imply acceptance by a state or provincial
board of dentistry or AGD endorsement. 01/01/2010 - 12/31/2021

Prosthodontics Mastertrack

REGISTRATION: 8:00AM - 8:30AM | COURSE: 8:30AM - 4:00PM

COURSE DESCRIPTION

The rationale, principles and management of the tooth replacement therapies and dental occlusion as it applies to our clinical dentistry is of vital importance for the long-term success of our dentistry. The use of fixed and removable prosthodontics with dental implants can provide viable treatment options for our patients. In addition, when the functional physiologic occlusion has been deteriorated to pathologic or non physiologic occlusion, the reconstruction of the occlusion and the masticatory complex can be complex.

This program will address the various topics that are essential to understand the biologic and biomechanical principles required to develop fixed and /or removable prosthetic options and functional occlusion for our patients for long term stability, comfort and physiologic function.

ADMIRAL INN AND SUITES | 2161 NORTH SHERIDAN WAY, MISSISSAUGA, ON
