Friday, September 22, 2022
Day 1: Participation Course
 Overdentures: Design;
 Impressions
 Course Codes 670; 690

Course Objectives:

- Learn how the number and location of implants influence the outcome
- Understand the different attachment options determining when each is indicated
- Simplify centric relation: the most critical step to denture success
- Pick up attachments under an overdenture in a hands-on exercise
- Complete a hands-on exercise to apply a modified impression technique

M. Nader Sharifi, DDS

Dr. Sharifi holds a certificate in prosthodontics and a master's degree in biomaterials from Northwestern University. He received his dental education at the University of Illinois. He has presented more than 500 lectures covering numerous topics on restorative dentistry earning him recognition from esteemed study groups, societies and associations across the nation and internationally.

Dr. Sharifi currently maintains a full-time private practice of prosthodontics in Chicago's downtown loop and uses his experience as a five day a week wet gloved dentist to ensure time saving and cost-effective care are represented in his presentations. In 2007 Chicago Dental Society honored him with the Gordon Christenson Distinguished Lecturer Award. He has also been honored with Fellowship in the American College of Dentists and Membership in the American Academy of Restorative Dentistry—both in 2010.

He is affiliated with: American Academy of Restorative Dentists; American College of Prosthodontics; American College of Dentists; American Dental Association.

M. Nader Sharifi, DDS

Course Objectives:

- Compare various clasp design options for the free-end saddle RPD
- Learn numerous clasp design options for the free-end saddle RDP
- Create a solution to overcome limitations with Digital Soft Tissue Scanning
